Expostar Magnetic

The traditional pop-up frame in its most modern design.

«We create your marketing displays.»

We have again improved some important aspects of the traditional and worldwide best-selling pop-up system. The base is still the self-locking frame made of high quality, powder-coated aluminium. Hence, a frame without fragile locking system.

You can also opt for our molded 'A Case ' trolley which can be turned into an attractive counter using a special full colour panel and a luxurious wooden top.

A new feature is the (3-part) folding magnet rail which is fixed magnetically to the frame for optimal convenience and speed. Also new is the completely invisible panel fixing system using special clips on the back of the panels, so no black plastic strips, holes or slots are visible. All that can be seen is your communication!

With the Expostar Magnetic you choose guaranteed quality, convenience and durability! This is the ideal resource for presenting your company or product with speed, simplicity and great professionalism at events such as fairs, congresses or seminars.

Self-locking frame without supports

Magnetic fastening of the magnet rails

Invisible panel attachment

Arm Light

A Case Trolley

Type	Dimension (HXWXD) in mm	Weight	Price	Includes
